

How to Setup After the Fact Clocking on your Datamaxx Device

Application Setup

Configuration Level
☐ Standard ☒ Detailed

1. Choose Detailed

2. Choose The Device Type you are using

3. If you chose a punch type of O in the after the fact setup you want to Hide all the InPunch levels you want to Track with the out punch (the Out Punch is what Datamaxx will use to complete the After the fact punches.)

Note: This screen is for configuring other DataMaxx programs. These settings will not apply within DataMaxx7.

Device Code	Employee ID	Name	Active
1234	9998	Jeannie test e...	<input checked="" type="checkbox"/>
1212	1212	MILLS, COYTE	<input checked="" type="checkbox"/>
2445	2445	GAMBRELL, C...	<input checked="" type="checkbox"/>
2308	2308	PRESCOTT, A...	<input checked="" type="checkbox"/>
0132	0132	MARTIN, THO...	<input checked="" type="checkbox"/>
