- 9. Log into the SQL server Management Studio to Create the database and use name and Password.
 - A. Click on Windows logo then all programs > Microsoft SQL Server 2008 R2 > SQlServer Management Studio
 - B. Log in using Window Authentication
 - C. Right Click on Database and Click on New Database

- D. Name the database datamaxx > click OK
- E. Double Click on the CreateDatabaseTables File in the PCMaxx setup folder.
- F. It will install the script in a new query window on the SQL Management studio > click Execute (this will take a few minutes to run. There will be a Successful prompt when you are finished.

G. Next Create a New Security Log in . In the Management Studio Right click on Security > new > Login ...

- H. Make Login name datamaxx > tick SQL server Authentication
- I. Add password datamaxx and confirm
- J. Uncheck Enforce Password Policy
- K. Change Default database to datamaxx
