

Datamaxx Inventory QuickStart

If you choose to sync via Cradle or Cable follow steps 1-3

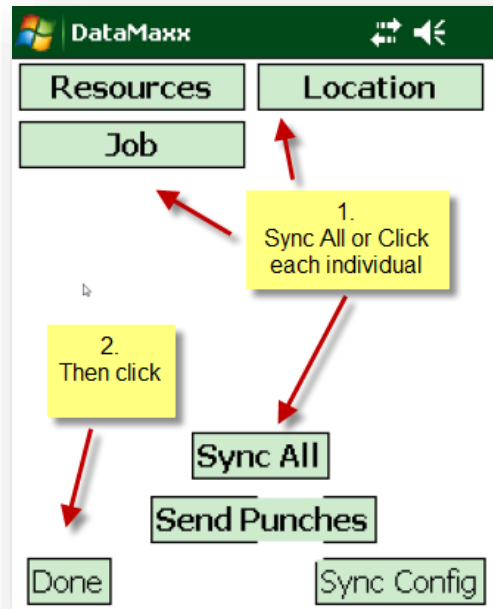

1.

2.

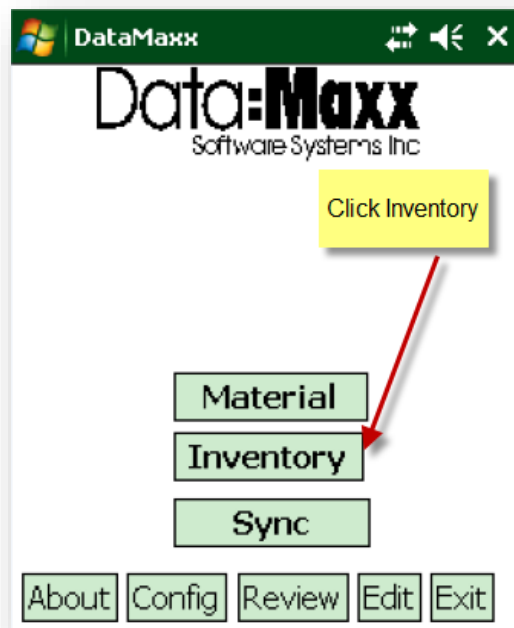

3.

After Syncing you detach the PDA from the cradle or USB cord.

4.

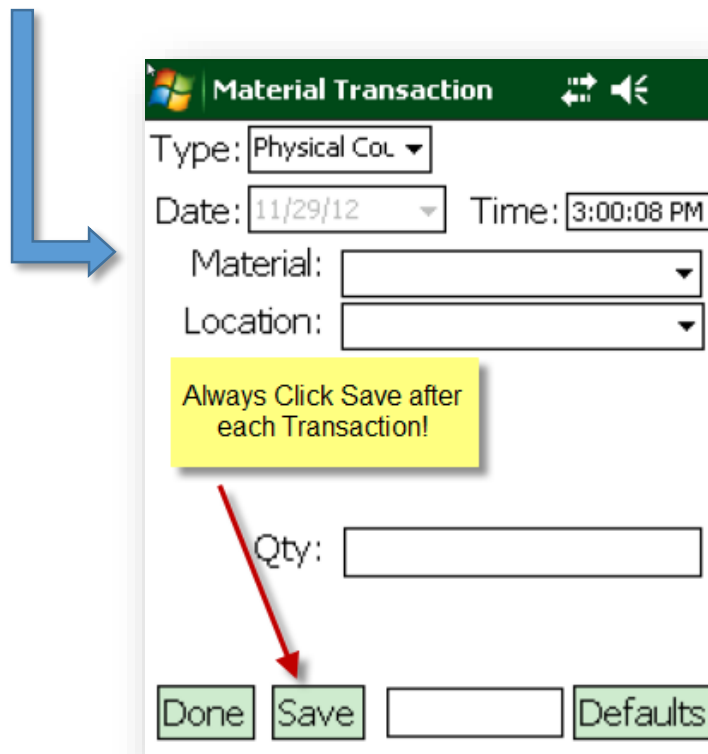

5. Select the Transaction Type

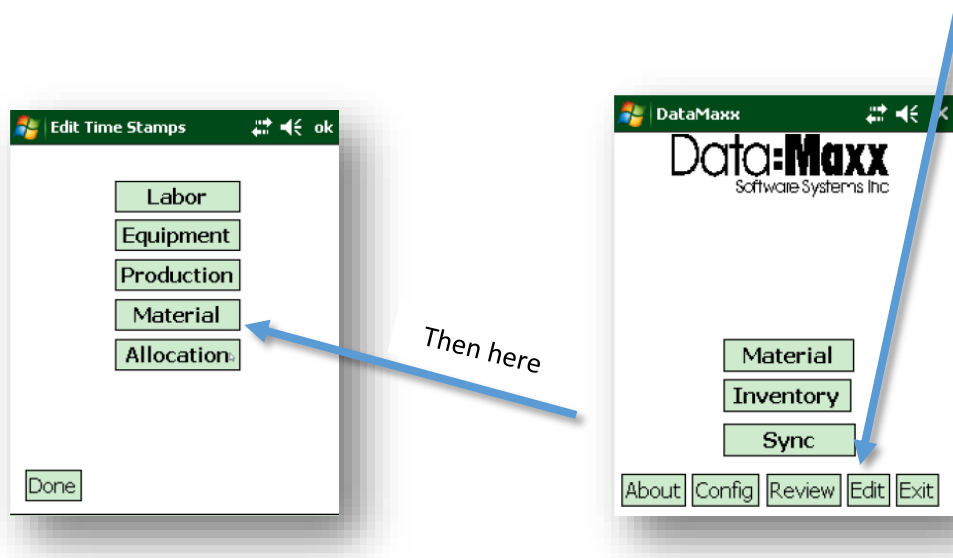

The 'Inventory Menu' screen displays a list of transaction types in green buttons: Fill Requisitions, Stock Receipts, Receive Purchase Orders, Issues to Jobs/WOs, Transfers, Returns, Physical Counts, and Pick Up Costs. At the bottom are 'Done' and 'Mng. Off' buttons.

6. Depending on the Transaction Type scan the item and then enter any Job Cost or Location information.

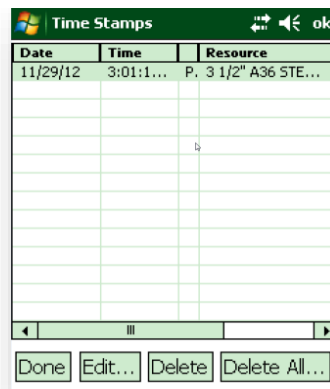

The 'Material Transaction' screen shows fields for Type (Physical Col.), Date (11/29/12), and Time (3:00:08 PM). It includes dropdown menus for Material and Location. A yellow callout box states 'Always Click Save after each Transaction!' with a red arrow pointing to the 'Save' button. The bottom row contains 'Done', 'Save', an empty input field, and 'Defaults' buttons. A large blue arrow points from step 6 to this screen.

7. After finishing all transactions click done to return to the Home Screen. You can review your transactions by clicking here.

Your items will be listed here. Click on one if there is a need to edit

Click done to return to the Home Screen. Then click Sync and Send Punches. Click done and then exit the program
