# Keep Track of your business from wherever you do business.

**Data:Maxx**™
Technologies, Inc.

Let Data:Maxx automate your equipment management...from anywhere.
## Data:Maxx
# Equipment™

**How would your company benefit** if you could easily and accurately manage the equipment and small tools that are so vital to the profitability of your business? What if you could:

*Accurately track the equipment located at each of your job sites? Know the location of each piece of equipment, when it left the shop or warehouse, and who is responsible for it? Manage your equipment and tools so costs are kept in check yet equipment and tools are available when you need them?*

What if you could do all this and more, from the field or the warehouse, as easily as scanning a bar code?. With Data-Maxx, you can.

A Data-Maxx system helps companies large or small automate the critical job of collecting equipment usage. Using the latest technology in bar code scanning and mobile computing, Data-Maxx offers a convenient choice of data collection devices. Use rugged handheld devices, to easily collect

data that can be uploaded to your accounting system from just about anywhere.  And, Data-Maxx integrates your information with over 100 payroll and accounting packages, streamlining paperwork and eliminating manual errors.

# Data:Maxx™

♦Track equipment and small tools associated with jobs, tasks, or people. Define additional prompts for other data you want to capture.

♦Scan items being checked out or returned from a job, warehouse location, or truck

♦Transfer items to and from jobs, trucks and locations.

♦Track maintenance tasks performed on equipment and equipment by job usage by job, and check in/out times with date ranges.

♦Export  transactions to  most  standard accounting  systems (check with your Data-Maxx business consultant for details on how to integrate with your accounting system)

## Call 888-995-0184 Today

For more information, call your Data-Maxx Business Consultant today.  Visit us on the web at www.data-maxx.com.

## Data-Maxx Equipment lets you:

♦Automatically import items, jobs, and cost codes from your accounting system

♦Create bar codes for all your equipment using labels, paper for inventory notebook scans, or PVC cards

♦Enter data via bar code scanning, dropdown choices or keypad input
