

# Data:Maxx™

## Compact and Repair Guide

1. Make sure everyone is out of Data:Maxx V6 except you.
2. Click on the Admin tools button on the left hand side
3. Check the circle at the end of the Data File line.
4. Choose the compact and repair button in the lower right corner.
5. Say yes to all prompts and exit out of Data:Maxx using the exit button not the X
6. Check both boxes in the pop up screen and choose compact and repair.
7. Close it when it finishes then reopen Data:Maxx.

4.
